José Simón Díaz

Full Stack Developer | Scrum Master | TypeScript · Node.js · React · Next.js · PostgreSQL

Yerba Buena, Tucumán, Argentina | diazjosesimon001@gmail.com | +54 9 381 617 9958 | linkedin.com/in/josesimondiaz

PROFESSIONAL SUMMARY

Full Stack Developer with experience building management systems for Tucumán Government agencies and a utility cooperative. Designed and implemented end-to-end modules (data model, REST API, business logic and UI) with TypeScript, Node.js, React and Next.js on PostgreSQL and MongoDB, including role-based access control (RBAC), auditing, PDF generation, offline-first PWAs and E2E/QA testing with Cypress and Playwright. Led several development teams as Scrum Master applying agile practices, and mentored students as a Full Stack tutor.

PROFESSIONAL EXPERIENCE

Scrum Master — Development teams 2026

RollingCode Studio · Scrum + Studio Professional Practice

- Led several development teams: task coordination, facilitation of Scrum ceremonies and client communication.
- Awarded the RollingCode Studio Professional Practice Certificate for leading development teams as Scrum Master.

Full Stack Developer — San Pedro de Colalao Cooperative 2025 - 2026

RollingCode Studio · Development team

- Built a full stack management system (cash desk, members, rates, billing and payment plans) on PostgreSQL and Prisma.
- Designed and implemented an audit system across 5 entities, with a query API and a dashboard that shows changes in plain language.
- Implemented payment plans and methods with a REST API, Zod validation shared between frontend and backend, and server-side debt calculation.
- Implemented user and role management and a password policy with live requirement validation.

Full Stack Developer — IPACyM Digital 2024 - 2026

RollingCode Studio · Provincial Institute of Cooperative and Mutual Action (Tucumán Government)

- Developed the Assemblies, Fiscal Years/Balance Sheets and Certificates modules end to end, with multi-department review and approval workflows.
- Implemented role- and permission-based access control (RBAC) with 13 user profiles.
- Built PDF certificate generation integrated into the approval workflow.

Full Stack Developer — IPAAT Webapp (SIPPCA) 2024 - 2026

RollingCode Studio · Tucumán Sugar and Alcohol Promotion Institute

- Built the registration and re-registration flow for producers, cooperatives and sugar mills, including plot, land-registry and legal-representative management.
- Implemented an offline-first mode (PWA) with IndexedDB synchronization.
- Generated certificates and reports exportable to PDF and Excel.
- Normalized the database.
- Developed the CRUD, authentication, auditing and roles modules.

Full Stack Web Developer — RollingCode Labs 2024 - 2026

- Built certificate issuance as blockchain NFTs, with authenticity verification.
- Built the RollingCode+ subscription flow: user sign-up, plans and subscription management.
- Performed E2E testing and QA with Cypress, working with Git/GitHub and Scrum (sprints, dailies, code review).

Full Stack Tutor — RollingCode School 2024 - 2026

- Technical mentoring in frontend and backend (MERN stack) in theory and hands-on classes.
- Code review of individual and team projects, advising on best practices, architecture and databases.

TECHNICAL SKILLS

Languages	TypeScript, JavaScript (ES6+), Python, SQL, HTML5, CSS3, Bash
Backend and APIs	MERN stack (MongoDB, Express, React, Node.js), Node.js, Express, NestJS, REST APIs, authentication and authorization, RBAC, Clean Architecture, GraphQL (basic)
Frontend	React, Next.js (14/15/16), Tailwind CSS, Ant Design, Radix UI, Zustand, TanStack Query, React Hook Form, Zod
Databases	PostgreSQL, MySQL, MongoDB, Firebase, Prisma ORM, Mongoose, data modeling and normalization, SQL optimization
Testing and QA	Cypress, Playwright, E2E testing, automated QA, Postman, ATDD, Jira
PDF, reports and PWA	pdf-lib, jsPDF, xlsx, IndexedDB, offline-first PWA
Blockchain and Web3	NFTs, on-chain digital certificates
DevOps and tools	Git, GitHub, Docker, Linux, Vercel, Netlify, cron jobs
Methodologies	Scrum, Agile, code review, UML, requirements analysis, system design
Artificial intelligence	Claude Code, GitHub Copilot, ChatGPT, Gemini
Design	Figma, Canva

EDUCATION

University Technical Degree in Programming — National University of Tucumán — In progress (2nd year)

Information Systems Engineering — National University of Tucumán — In progress (1st year)

Full Stack Web Development — RollingCode School — 2024
